

SCOPE OF SUPPLY

Personnel Protection Tunnel System

- 🚧 Creates “safe-zone” tunnel extending under coating
- 🚧 Tunnel system withstands 250 lbs (113.5kg) dropped from 2 feet (61cm) with a 3:1 safety factor
- 🚧 Designed and Certified by a Professional Engineer
- 🚧 Lightweight components easily fit through most openings
- 🚧 Expandable – just add more Tunnel Cages
- 🚧 8 foot (3m) Set-up Cage rolls along the spine of the tunnel system allowing each tunnel section to be set up under cover
- 🚧 5 foot (1.5m) Tunnel Cages are easily assembled under cover of Set-Up Cage
- 🚧 System comes with 5 foot (1.5m) Heavy Duty Shock Absorbed Safety/Inspection Cage
- 🚧 Shock absorbed column on Safety/Inspection Cage ONLY for increased safety & ease of transport
- 🚧 Shoulder harness standard with Safety/Inspection Cage for added stability when carrying
- 🚧 4 independently adjustable legs for uneven surfaces on all cages
- 🚧 Modular construction for maximum versatility
