

Kiln Bedding Cart

Speed up bedding out larger kilns while providing a safe, ergonomic working deck with stairs for higher brick placement.

The Bedding Cart is a portable, aluminum rolling deck, with ergonomic steps to allow masons to bed the bottom of the kiln - up to the spring line with ease. The stairs provide a more stable and ergonomic way to reach the spring line, especially in larger kilns, removing the need for springboards or other dangerous methods to scale the side of the kiln.

KILN BEDDING CART

SAFETY FEATURES

Structural components 6061-T6 aluminum

Load capacity 2,720 kg (6,000 lb)

Polyurethane wheels with kick brake

Safety fall guards

ANSI, MSHA, CE and CSA compliant

EFFICIENCY FEATURES

Ergonomic step design to reach spring line

Pin connections for quick assembly and disassembly

Hitch rings in front to pull cart up kiln with a winch

Room for workers, tools, and staging brick

Custom designed for specific kiln diameters

ALUMINUM PERF-O-GRIP

planking on the deck and steps is lightweight and allows for sure footing and less buildup.

PIN CONNECTIONS

makes assembly and disassembly easy without having to worry about different hardware

ERGONOMICALLY DESIGNED

with steps so workers can access spring line of kiln easier and safer

SYMMETRICAL COMPONENTS

are engineering into the design of the bedding cart to simplify assembly further

CUSTOM MADE

for different kiln diameters, kiln ranges, or access accommodations

2,720 KG (6,600 LB) LOAD CAPACITY

allows for a pallet of brick, plus workers and tools

Since 1968,

we've been dedicated to enhancing the safety and efficiency of refractory maintenance crews around the world. We are the only manufacturer to offer a full-system, start-to-finish approach, from bricking machines and safety cages to conveyors and ramps. Our custom-design service ensures no matter what crews are up against, they have the equipment they need to minimize downtime and ensure everyone goes home uninjured each day.
