

Two pallets of brick can be easily lifted up to the burn floor to keep installation progressing.

The Material Basket is a strong, lightweight aluminum-frame that will keep contents stable, secure, and contained. For carrying tools, machines, rubble, or up to two pallets of brick. Can be lifted or carried with crane or forklift.

# **MATERIAL HANDLING**

## **HEAVY DUTY CAPACITY**

The 4,535 kg (10,000 lb) capacity allows for 2 pallets of brick, tools, equipment and more.

### **CUSTOM MADE**

Each plant has unique problems and we can design and manufacture a solution that works to any specific need. All material baskets are designed by engineers and manufactured by certified welders using T6-6061 aluminum.

## **Since 1968**,

we've been dedicated to enhancing the safety and efficiency of refractory maintenance crews around the world. We are the only manufacturer to offer a full-system, start-to-finish approach, from bricking machines and safety cages to conveyors and ramps. Our custom-design service ensures no matter what crews are up against, they have the equipment they need to minimize downtime and ensure everyone goes home uninjured each day.

Bricking Solutions, Inc. | 1144 Village Way, Monroe, WA 98272 USA 800.621.7856 | +1.360.794.1277 | FAX: +1.360.805.2521 info@brickingsolutions.com | www.brickingsolutions.com

#### **SAFETY**

Safer than free lifting pallets with a crane. Keeps contents stable, secure, and contained

## **HOW IT WORKS**

Lift and carry with a crane or forklift. Heavy duty screening keeps loose items safely contained such as: open pallets, tools, machines, or rubble.
